TITLE INDEX, VOLUME 18 (1989)

ALICE: acquisition of linguistic items in the context of examples, 63

A model of student approaches to learning encompassing ways to influence and change approaches, 263

A more equitable account of the note-taking functions in learning from lecture and from text, 217

Analogical reasoning: abstract transfer versus explanatory model construction, 237

Analogical transfer, teaching to improve problem-solving, thinking and learning, 179

An intelligent tutoring system for helping children ages 7 to 15 to acquire a second language, 27

Classroom presentations and instructional behaviors, 289

Designing a self-improving tutor: PROTO-TEG, 193

Effective learning/thinking, strategies program for, 95

FL-IDE: Hypertext for structuring a conceptual design for computer-assisted language learning, 5

Formative assessment and the design of instructional systems, 119

Hypertext for computer-assisted language learning, 5

Instructional design, formative assessment, 119

Instructional behaviors for clearer presentations in the classroom, 289

Learning paradox and its solution, 169

Linguistic item acquisition, 63

Natural language interfaces in computer assisted language learning, 45

Note-taking in learning from lecture and from text, 217

Overcoming misconceptions via analogical reasoning: abstract transfer versus explanatory model construction, 237

Second language intelligent tutoring system, 27

Self-improving tutor: PROTO-TEG, 193

Solving the learning paradox, 169

Some uses of natural language interfaces in computer assisted language learning, 45

SPELT: (strategies program for effective learning/thinking): a description and analysis of instructional procedures, 95

Student approaches to learning, 263

Students' writing and teachers' written feedback, 145

Teaching for analogical transfer as a means of improving problem-solving, thinking and learning, 179

The study of teachers' written feedback to students' writing: changes in theoretical considerations and the expansion of research contexts, 145
